Assessment and Examination Arrangements for 2026-2027 Academic Year

Please be advised of the assessment and examination arrangements for the 2026–2027 academic year. The school integrates formative assessments—ongoing evaluations designed to inform and enhance the learning process—and summative assessments, which serve to evaluate overall student achievement to foster student growth and development.

A. Assessment Arrangement (Primary 1 only)

To facilitate a smooth transition from kindergarten to primary education, the school will not administer written examinations for Primary 1 students during the first term. Commencing in the second term, Primary 1 students will engage in formative assessments. Furthermore, Primary 1 students will undertake the Final Examination / Assessment in June 2027, which will contribute to their overall annual results. Prior to the examination, teachers evaluate students' performance through classwork, homework assignments, quizzes, projects, and participation in class activities.
