Quidditch

If you've ever read any of the Harry Potter books or seen the films based on them, then you are surely familiar with the game of Quidditch, also known as Quadball. The game involves a team of seven players with a broom between their legs (unfortunately not a magical flying one!) trying to score more goals than the other side before the 'snitch' is caught. Points are scored when you pass one of the balls through the opponents' rings or manage to steal a small ball from the enemy runner.

Toe Wrestling

You must have heard of arm wrestling, but you probably haven't heard of the less well-known sport of toe wrestling. The sport involves two competitors going head-to-head (or should that be foot-to-foot?) to try to pin their opponent's foot to the ground for at least 3 seconds. There are usually three rounds, with the winner having the best 2 out of 3.

Bossaball

Originating in Brazil but now played in many other countries, bossaball (not to be confused with baseball) is a team sport that combines volleyball, gymnastics and football with music. It is played on a huge inflatable court with trampolines which allow players to bounce high enough to spike or kick the ball over the net. Just like in volleyball, points are scored when the ball touches the floor of the opponent's side or they make an error. Music is a major part of a bossaball match and the person overseeing the game is called the 'samba referee' and is responsible for a DJ set as well as making calls about the game.

Yukigassen

This exciting new sport originated in Japan, and is essentially a huge snowball battle. Each team has 7 players and have to try to avoid being eliminated by an enemy snowball. Teams can prepare 90 snowballs before the game starts and then the battle commences. If a player is hit by an enemy snowball they are out of the game. The last team to be eliminated wins, as simple as that.

**“Failure is a bend in the road, not the end
of the road. Learn from failure and keep
moving forward.”**

English

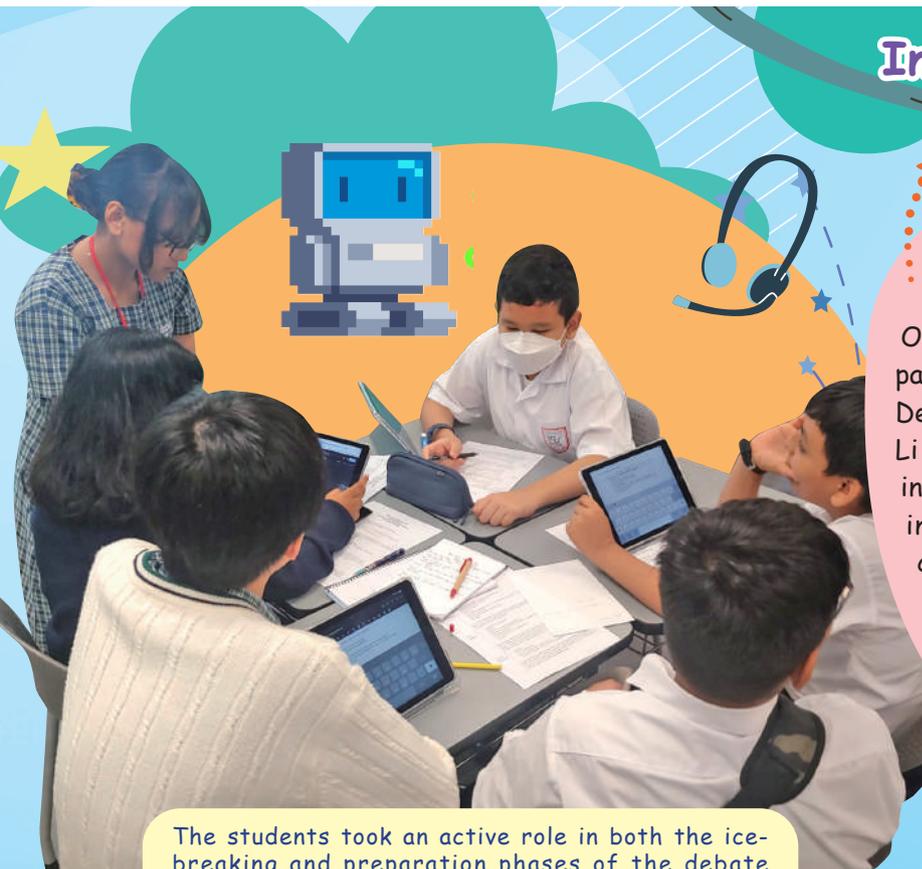

A diverse range of activities are used to foster students' independence as lifelong learners, enhance their communication skills and provide opportunities to engage in authentic contexts using the English language.

75th Hong Kong Schools Speech Festival (English)

This year, a total of 55 students devotedly took part in the solo verse speaking category of the 75th Hong Kong Schools Speech Festival (English). Our students' hard work led them to achieve outstanding results in this competition.

Inter-Primary Schools English

On 11th November 2023, some of our P.6 students participated in the Inter-Primary Schools English Debate Challenge 2023 organized by HKMA David Li Kwok Po College. It aims to arouse students' interest and guide them to gain valuable skills in conducting debates. During the activity, critical thinking, effective communication, and teamwork abilities were sharpened as they confidently expressed their opinions.

The students took an active role in both the ice-breaking and preparation phases of the debate challenge.

This is the first time our students participated in a debate challenge. They tried their best!

Hong Kong School Drama Festival 2023/24

Developing Ourselves

The Musical and Drama Group has long been a way for our students to be able to discover and showcase their acting abilities, while simultaneously enhancing their confidence and developing their communication skills and developing an interest in drama.

The Hong Kong School Drama Festival is the highlight of the year for the Drama Group, as it allows our students to compete against schools from all over Hong Kong. The diligent and focused efforts of our talented performers was demonstrated through their adaptation of the classic play 'You are Special' by Max Lucado. The story's valuable moral is that, even though we may make mistakes and have our flaws, we are all special. For their excellent performances, three of our talented actors, Alishba (4D), Myla and Raghav (both 6A) received the Outstanding Performer Awards, while the school was got the Outstanding Stage Effects and Outstanding Cooperation Awards. Our drama group members are certainly special!

Debate Challenge 2023

Thanks HKMA David Li Kwok Po College for providing this opportunity for us!

Budding Poets Competition

As in the past, selected P4-6 students were invited to take part in the Hong Kong Academy for Gifted Education's Budding Poets Competition. The competition allowed the students to develop their creativity through the highly subjective medium of poetry. The theme of the competition this year was 'Heritage', and students could write about festivals, folklore, or other aspects of their culture. Students were also invited to enter the 'Free Selection' category allowing them to express their creativity in an even more unrestrained way. Like last year, the standard of the entries was incredibly high.

Best of luck to all of our aspiring poets!

The Embrace

Here is where branches spread wide,
Every branch gives us light,
Roots hold us together,
This is where we get stronger,
The family tree has history,
Ancestors support the tree to grow,
Generations multiplied make the tree grow,
Every person makes memories.

by Jasraj (6A)

A FAMILY TREE

A family tree,
A tree so wide,
A tree where history and mystery intertwine.
A family tree,
A tree so old,
A tree that stands so free and bold.
A family tree,
A tree so free,
A tree that holds history's key.
A family tree,
A tree so grand,
A tree whose branches forever expand.
A family tree,
A tree that stays together,
A tree where memories last forever.

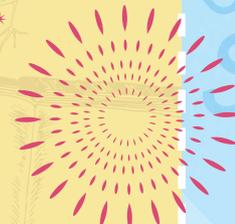

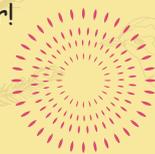

by Salif (5A)

Chinese New Year

Red and Gold,
Will never get old,
Dragons and lions, Lamps and lanterns,
Always fresh new patterns,
Banners flying,
Bands playing,
Lights sparkling,
Fireworks crackling,
Silver and Gold swinging,
Families bonding,
With their kids rejoicing,
As they are welcoming,
The New Lunar Year,
The Chinese New Year!
A new year,
A new hope,
A new goal,
A new peace,
A new you and a new me,
But with the old Chinese tradition,
Wishing you all a Gong Xi Fa Cai!

by Hallaji (5A)

Time to Talk Public Speaking Competition

5A students Salif, Zeynep, Kin Ho and Aleena got 2nd place!

Selected students from P4 and P5 took part in the Time to Talk Public Speaking Competition organised by the NET section of the Education Bureau. Public speaking is an invaluable

skill, and the competition aimed to allow students to hone their presentation skills and experiment with the use of English to develop their confidence to speak in front of an audience. The competition's theme this year was 'Promoting Positive Values and Attitudes' and the competition was open to schools from throughout Hong Kong. Our students did incredibly well and took both of the top prizes, beating competition from more than 10 other teams. P4 students got 1st place for their presentation on 'Loving nature', while P5 got 2nd place for their presentation on 'Love of country'. Congratulations to our students of their hard work!

4A students Raka, Cassandra, David, and Samara were awarded the top prize!

The winners proudly showing off the trophies they won!

Parents' Workshop

An English parents' workshop was held on 18 October 2023. In the first part, different types of English assignments and formative assessments were introduced to parents.

In the second part, the panel chairs shared learning resources with parents to enhance their children's reading and self-directed learning abilities. Parents learned how to access the new e-learning platform 'GoAdaptive' to support their children's English learning beyond classroom. This platform provides learning resources to sustain their children's educational journey.

A group of supportive parents attended the workshop to know more about English learning in LCU.

Chinese Educational Visit – Yuen Yuen Care Attention Home for the Aged

In Chinese culture, respect for elders is a deep-rooted traditional value. This respect is not limited to one's own parents or grandparents but all older members of society. An educational visit to Yuen Yuen Care Attention Home for the Aged was arranged for P.5 students on 12th December 2024.

Students sang the Chinese folk song "Mo Li Hua" and performed Ku Fung which, with the enthusiastic applause and compliments, were highly appreciated. Students had also written greeting cards to each of the elderly and gave them towel teddy bears gifts. Students were delighted to see the happy smiles of the elderly and felt excited to shake hands with a 102-year-old lady! What a wonderful and meaningful day!

Chinese Educational Visit – Lung Yeuk Tau Heritage Trail

To provide an opportunity for students to learn more about the traditional life in the area of Fanling, a guided tour to Lung Yeuk Tau Heritage Trail was arranged on 18th, 19th December, 2023 and 4th, 5th January, 2024.

All P.6 students explored the traditional architecture, cultural heritage and ancestral custom of Hong Kong's rural communities. Along the trail, students found several notable attractions, such as the Tang Chung Ling Ancestral Hall which is the main ancestral hall of the Tang clan. Also, they visited Sheung Cheung Wai, a walled village that dates back to the 16th century. Students enjoyed the trip tremendously and were attentive while the tour guide was introducing the trail.

Kowloon Walled City Park

An educational visit to the Kowloon Walled City Park was arranged in December for all P.5 students.

The park occupies one of the most historic sites in the territory and consists of an outdoor display area and six exhibition rooms. Through the lively introduction of the tour guide, students appreciated the history of the former Walled City, the architectural theme of the Chinese Garden design as well as the unearthed relics. The visit has broadened the horizons of the students and enriched their knowledge of local culture and the history of Hong Kong.

Developing Ourselves

Chinese Week

Chinese Week was held in November, 2023. Students participated in a competition and played various Chinese booth games. These meaningful activities cultivated students' interests in Chinese learning and cultural connotations. Prizes were given to the winners and participants so as to encourage them to be confident Chinese learners. Meanwhile, some students were chosen as Chinese Ambassadors who were responsible for holding the Chinese booth games and interacting with their schoolmates in Chinese. The Ambassadors were confident in speaking Cantonese and it was a good experience for them.

75th Hong Kong Schools Speech Festival

This year, a total of 49 students participated in the 75th Hong Kong Schools Speech Festival (Chinese poetry recitation). Thanks to the dedication of subject teachers and the persistent hard work of students, 22 students were awarded merits and 26 attained proficiency. Congratulations to these students! We appreciate your effort!

Lunar New Year Fair

To immerse students in the festive atmosphere and traditions associated with the Lunar New Year, a visit to the Lunar New Year Fair was arranged. All P.4 students went shopping in the Fa Hui Park and they had the chance to communicate with local people in Cantonese while they were purchasing the goods. Students enjoyed the visit very much as it offered them a wonderful opportunity to experience traditional Chinese food, handicrafts and plants.

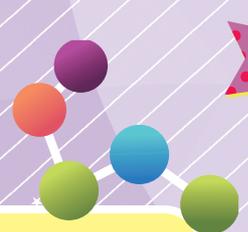

Visit to Xiqu Centre

The Tea House Student Matinee at the Xiqu Centre allows students to explore the art of Xiqu and traditional Chinese culture in a stimulating and interdisciplinary manner. Through narrated performances, demonstrations of traditional Cantonese music, interactive facilitator-led discussion sessions, and post-performance appreciation workshops, students have the opportunity to delve into the world of Xiqu and Chinese culture while developing positive values.

General Studies

Developing Ourselves

GS Educational Visits

This year, our students had the opportunity to explore various educational sites across Hong Kong, enriching their learning beyond the traditional classroom setting. These educational adventures fostered curiosity, creativity, and a lasting appreciation for diverse cultures and sciences, offering students unforgettable experiences and valuable insights.

Additionally, Primary 6 students joined an online visit of the Legislative Council in December 2023. Through a virtual tour of the Chamber, quizzes, and video sharing, they learnt about the daily operation of the council. Students then engaged in a role-play motion debate and voted on topics such as formulating a bicycle-friendly policy or enhancing the development of heritage tourism.

GS Morning Assembly

Every Thursday from 8:30 to 8:45 a.m., our school hosts GS morning assembly sessions. These are quick, engaging talks led by our teachers on cool topics like Animal Assisted Therapy, Tropical Cyclones, and how Potato Chips were invented. We use slides, videos, and fun activities to make these lessons interesting. It's all about getting our students excited about science and the world around them.

Subject-based Parents' Workshop

Our recent parent workshop, held on October 25th, 2023, focused on how General Studies promotes science and technology in our school. We shared insights into how GS encourages learning through self-directed activities like flipped classrooms and hands-on projects, including scientific experiments.

Parents actively participated in a fun hands-on activity where they built pom-pom launchers, showcasing energy transfer and simple machines principles. It was a rewarding and enjoyable workshop for all involved.

Building pom-pom launchers with various materials.

Mathematics

Parents' Workshop

To help equip parents with the skills needed to facilitate their children's learning in Mathematics, a parent workshop was held on October 25, 2023. During the workshop, various Maths-related story books, educational games, and online learning platforms (such as Planetii) were recommended to parents to enhance their students' interest in learning Mathematics. Additionally, reading resources were displayed in our school library, and Maths ambassadors were invited to create videos introducing Maths storybooks to fellow students and parents, aiming to encourage students to develop reading habits in Mathematics.

We introduced the reading materials and the online learning platform to our parents to enhance the kids' learning in Maths.

Maths Ambassadors

Maths Ambassadors were selected to facilitate the multiplication activity for P.2-3 students. During the activity, various strategies and educational apps were employed to enhance students' learning in reciting multiplication tables.

Well Done! Students can learn from their peers and schoolmates!

Fun in Learning Mathematics

They also enjoy learning Mathematics with the help of different teaching aids and online learning platforms.

Rummikub Competition

Azad Tamid AL, Gurung Everest and Bui Trung Kien from Class 6A joined an inter-school Rummikub Competition in October 2023. It was a great opportunity to enhance students' interest in Mathematics and number sense. They got the chance to compete against students from other schools and widen their horizons.

Congratulations to Tamid who was awarded the Good Performance Award!

Music

Christmas Carol Performance at Cheung Sha Wan Plaza

Our school was honourably invited by Lai Sun Development Company Limited to sing some Christmas carols at Cheung Sha Wan Plaza on 19 December, 2023. Our Junior Choir showed the warmth of the festive season with the audience by joyfully singing their renditions of some classic carols and nursery rhymes.

The Fluteman Show

On 17th November, 2023, our P.3 students enjoyed an extraordinary recorder performance by the internationally acclaimed recorder player Gabor Vosteen with City Chamber Orchestra of Hong Kong in Shatin Town Hall. The show cleverly combine outstanding musicianship and virtuosity with physical comedy. Our students relished an afternoon of delight as they immersed themselves in the captivating performance.

Folk Song Competition

14 students from the Senior Choir participated in the English Folk Song Singing Contest Final on 9th December, 2023 at Qualied College. It was a valuable experience that allowed them to showcase their talent and passion for singing. We are immensely proud of them for receiving the merit certificate.

Music for the Millions Concert

On 4 January, 2024, we were thrilled to have the Chinese orchestra from the Music Office performed a mesmerizing concert for P.5-6 students in the school hall. It was a remarkable opportunity for our students to discover the unique sounds, instruments and melodies of Chinese music.

Developing Ourselves

Hong Kong Schools Music Festival

This year, our Senior Choir joined the primary school choir competition and 7 students also joined the solo-singing and erhu competition in the 76th Hong Kong Schools Music Festival which was organized by the Hong Kong Schools Music and Speech Association. The Senior Choir received the Bronze Award while 7 students got the Silver Award in the Solo-singing Competition. The competition was a rewarding experience for the students and served as a testament to their hard work and determination in music.

Handmade Instrument Project

Our students' handmade instruments displayed their creativity and cultural exploration. The students had fun exploring the relationship between different materials and sounds. The P.5-6 project added the element of Chinese music this year. These are the masterpieces created by our students.

Visual Arts

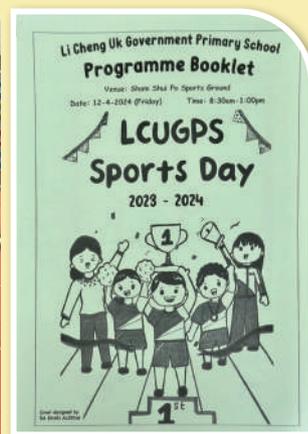

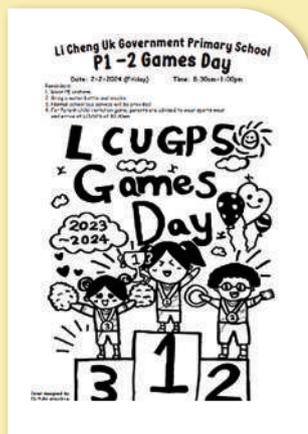

Chinese Traditional Festival Art Decoration Design

To enhance students' appreciation of the beauty of Chinese arts and develop students' creativity and artistic potential, our students designed different unique and outstanding Chinese art decorations during VA lessons, including Chinese lucky ornaments, colourful Chinese flower cellophane lanterns, lion dance penny bank and Chinese palace lantern with lights.

Games Day Flyer and Sports Day Booklet Cover Design Competition and Cheering Products Making

To encourage students to be more involved in the P.1-2 Games Day and P.3-6 Sports Day and cheer on our brilliant athletes, our students designed exquisite flyer booklet cover and colourful cheering products, which made the atmosphere of the events very lively and exciting. Our talented students, 2D Anusha and 5A Aleena won the Games Day Flyer Design and Sports Day Booklet Cover Design Competitions respectively.

Parent-Child Up-cycle Christmas Ornaments Competition

Our school invited all students and parents to join hands with us to protect the environment, by reducing waste and practicing recycling this year. The annual Parent-child Up-cycle Christmas Ornaments Competition was held in December to encourage students to reuse and recycle. Our students created some outstanding masterpieces to show their love of our planet!

Physical Education

Self-development is a personal process that involves enhancing and expanding our skills, knowledge, and character over time. Learning sports is a great way to embark on this journey. Sports not only improve our physical fitness but also contribute to our mental and emotional well-being. At LCU, students have the opportunity to learn sports not only in regular PE lessons but also through various learning experiences. These include inter-primary school sports competitions, EACT Jockey Club Active School programme, and "Love Our Home, Treasure Our Country" Chinese Martial Arts programme. As a result, students can achieve holistic development, both physically and mentally.

Kowloon West Area Inter-Primary Schools Basketball Competition

Our school basketball team participated in the "Kowloon West Area Inter-Primary Schools Basketball Competition" from February to March. A total of 11 teammates took part in the matches, enthusiastically demonstrating their immense energy and competitive team spirit.

Our teammates greet and shake hands with their opponents as a way of showing respect to others, which is one of the key aspects of playing any sport!

Kowloon West Area Inter-Primary Schools Athletic Competition

Our School Athletic Team participated in the "Kowloon West Area Inter-Primary Schools Athletic Competition" on 7th December. A total of 34 students took part in the competition. Congratulations to all the winners and those who tried their best.

We are confident and good to go!

Our School Athletic Team trained very hard in preparation for the Kowloon West Area Inter-Primary Schools Athletics Competition.

EACT Jockey Club Active School

Our school joined the EACT Jockey Club Active School Programme which targets students in Hong Kong to bring vitality and positive energy through professional training and all-round development activities.

Successful hitting the baseball is never easy.

Students are learning baseball from professional coaches of the Baseball Association of Hong Kong, China.

The coach provides constant guidance and feedback to every student, enabling them to develop their skills.

Developing Ourselves

“Love Our Home, Treasure Our Country” Chinese Martial Art Programme

The Education Bureau (EDB) launched a series of joint school activities under the theme of “Love Our Home, Treasure Our Country” with an aim of deepening students’ understanding of Chinese history and culture and cultivating in them a sense of nationhood and national identity. The Chinese Martial Art Programme is one such activity.

A solid punch always comes from a solid base, so students are required to practice squatting, which is fundamental to all types of kung fu!

From the programme “Love Our Home, Treasure Our Country”, we invited a professional Shaolin kung fu master to teach us Shaolin kung fu and the related values.

Library Studies

Tell-a-tale Children Storytelling Competition 2023-2024

On 22nd April, 2024, a training workshop was arranged to enhance the participants' storytelling skills.

This competition aims to build students' confidence in reading, writing, comprehension, and public speaking skills in English, Cantonese, and Putonghua. Throughout the competition, students had the opportunity to hone their language skills, showcase their linguistic abilities, and gain confidence in public speaking and storytelling.

Our talented students presented the tales with their animated body language and expressive facial expressions.

Parent Reading Workshop

Two reading workshops were conducted for P.1 & 2 parents in March 2024. The workshops focused on the importance of storytelling and aimed to equip parents with valuable skills to perfect storytelling sessions at home.

Ms Vivian Chung, an experienced storyteller, taught parents the art of storytelling and inspired them in developing their own unique style of storytelling.

Through interactive activities and discussions, parents learnt various storytelling techniques, such as voice modulation, gestures, and character portrayal.

Morning Reading

Chinese storybooks were read to students every Tuesday morning by the teacher-librarian. To empower students to develop empathy and diligence, stories related to perseverance and empathy were selected.

Reading Assembly

Students were highly involved in the story book and engaged in role-playing with their fingers.

Best Reading Classes

Classes with the highest score were awarded the "The Best Reading Class" of the month, scores were given based on the performance and atmosphere of the whole class during morning reading time.

World Book Day Drawing Competition

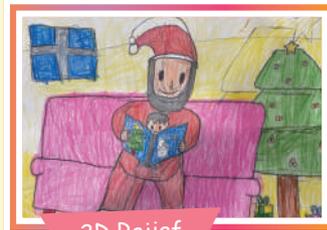

In support of the World Book Day, The Hong Kong Central Library organized a drawing competition based on the theme "Reading Love". Our school also held a Bookmark Design Competition for P.1 to P.3 students. The competition integrates reading and creation, and encourages students to broaden and deepen their scope of reading, as well as to share the joy and sentiments obtained from reading.

Visit to Hong Kong Public Library

Educational visits to the Hong Kong Central Library and Po On Road Public Library were arranged for students. Students were given a wide and diverse choice of resources to enhance their studies.

Students were introduced to digital resources in order to extend their horizons.

Students learnt about the community facilities and the services provided by the public library.

Character storytelling

The activity aimed to empower the students by promoting character education through the art of storytelling. The book "Cloudy with a chance of meatballs" reminded students about the importance of resilience, responsibility and their roles in the community.

Through interactive activities, students had the opportunity to develop essential character traits such as empathy and resilience.

Information Technology

Developing Ourselves

Computational Thinking and Coding Education

Computational Thinking and coding education are essential in today's digital age. They can cultivate students' problem-solving skills, logical reasoning and creativity. For P.2 to P.3 students, they learnt about unplugged programming and basic coding by using ScratchJr. For P.4 to P.6 students, in addition to Coolthink@JC Programme, they also learnt how to use the new technology such as micro:bit, 3D Printing, VR and AI.

Coolthink@JC Programme

This is the 2nd year that our school has joined the Coolthink@JC Programme. P.4 students participate in Level 1 and they learn to make games and animations through Scratch. P.5 to P.6 students participate in Level 2 and they learn to build mobile APPs, such as Piano APP and Addition Game App through APP Inventor.

Coo/Think@JC
賽馬會運算思維教育

Developing Ourselves

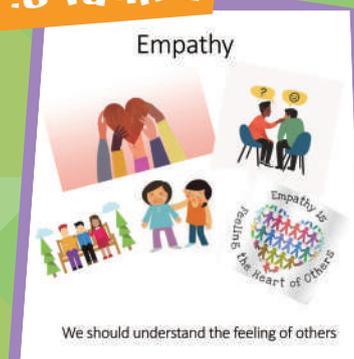

1st Term IT Project

The 1st Term IT Project was held in November and students applied their IT skills and creativity in the project. P.2 students used 'Paint' to draw a picture to show empathy. P.3 students used 'Word' to design a poster about empathy. P.4 students used 'PowerPoint' to create a presentation about showing respect to others.

P.2 Divine

P.3 Fatima

P.4 Samara

Putonghua 普通話科

75th Hong Kong Schools Speech Festival (Putonghua)

This year, a total of 18 students participated in the solo verse speaking in the 75th Hong Kong Schools Speech Festival (Putonghua). 10 students received merits while Chowdhury MD. Salif and Ng Shing Yau of 5A attained the 3rd Place.

Putonghua Ambassador Programme

The Putonghua Ambassador Programme was launched in the first semester to create a Putonghua-rich learning environment and boost students' confidence in Putonghua daily conversation. Twelve students

from P.4 were invited to be the Putonghua Ambassadors, assisting all P.2 students in practicing daily Putonghua conversation and reviewing Putonghua vocabulary during lunch time.

Putonghua Day

Putonghua Day was held on 23rd and 25th January 2024, with the aim of enhancing students' interest in learning and speaking Putonghua. Students thoroughly enjoyed participating in the exciting booth games that were set up.

Putonghua Speech Competition

To provide more opportunities for students to explore Putonghua, the school took part in the Hong Kong Putonghua Speech Competition which was organized by Education Bureau Curriculum Development Institute and Bauhinia Culture Group Corporation Limited. Two students received merits and one student attained proficiency.

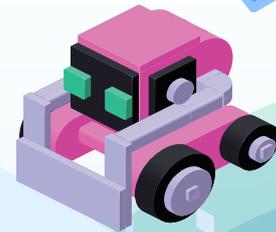

"Love Our Home, Treasure Our Country – Putonghua Ancient Poetry Appreciation Classes"

This year, all P.3 students participated in the 'Putonghua Ancient Poetry Appreciation Classes'. Through the appreciation, analysis and interpretation of classic Chinese poems, students developed their creativity and imagination. They gained a deep understanding and appreciation of the emotions and artistic concepts portrayed in classic poetry, fostering a sense of connection with and inheritance of the beauty of Chinese culture.

STEAM Education

STEAM Week

In January 2024, our school hosted STEAM Week, featuring a series of workshops designed for different grade levels. During these workshops, students worked together in groups to gain experience with the engineering design process, which included designing, testing, and modifying their designs. They thoroughly enjoyed engaging in hands-on building activities and participating in exciting group competitions throughout the event.

P.1 Sail Car Engineering

The workshop provided an opportunity for P.1 students to explore the impact of wind direction and strength on the movement of a sail car.

Every sail car has its unique design.

Students worked together with teammates to build the sail car.

Students raced their sail cars by swinging plastic fans.

Students were testing their sail cars before the competition.

P.2-3 Freight Transportation

P.2 and P.3 students participated in a workshop where they built freight transport vehicles incorporating various trailer features. Additionally, they engaged in a competition to determine which trailer could handle the largest load.

The car that could carry the most cargo was the winner.

Students collaborated on the construction and programming of the freight transportation.

Look at our competition work!

Students were overflowing with excitement.

P.4-5 Sensory Hopper

P.4 and P.5 students constructed hoppers and competed in races. They applied principles of friction and levers to optimize their hoppers' performance. Furthermore, they explored the use of sensors to detect changes in the environment.

Students were working on the coding of the hopper.

Students proudly presented their competition work.

The activity captivated viewers with a live broadcast of the competition.

P.6 AIMachine Learning

P.6 students had the opportunity to create a sorting machine using Micro:bit, LEGO, and a lens capable of object recognition. The machine was designed to sort items for recycling. Throughout the process, the students gained knowledge and understanding of artificial intelligence concepts, further enhancing their learning experience.

Engaging in collaborative discussions, students explored how to construct the sorting machine.

It was fun experiencing the use of lens.

Various photo samples were taken to train the model.

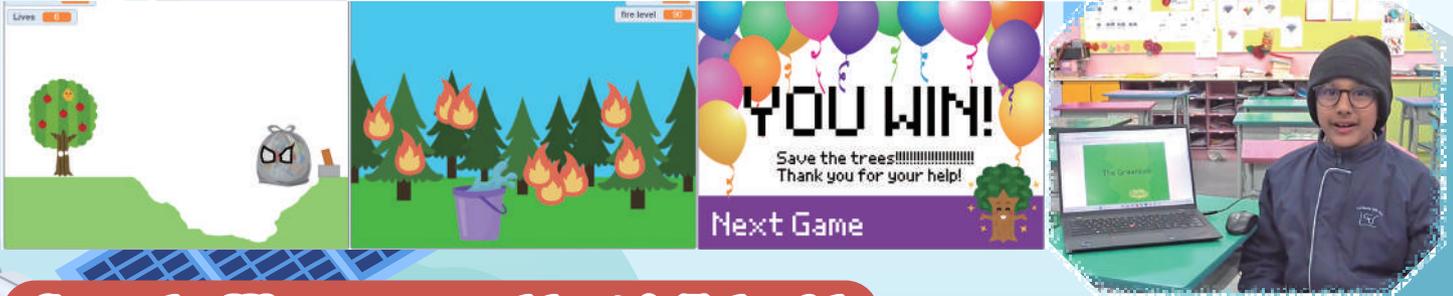

Students skilfully connected the cables to the sorting machine.

Robofest Hong Kong App Junior

Our students created games on Scratch with the aim of promoting environmentally friendly and hygienic concepts. Let's take a look at their games together!

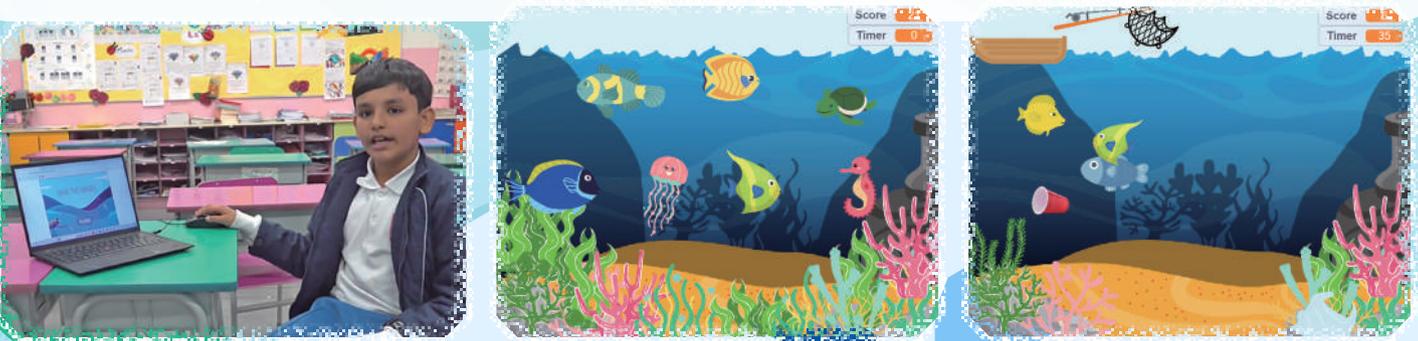

The Greenium created by 5A Aadhil

This game teaches people to protect trees. In Level 1, the player has to avoid trash and collect water in order to score points. As the player accumulates points, the character gradually changes its appearance from a seed to a tree. In Level 2, the player must extinguish fires in the forest within a limited time. Aadhil's exceptional skills and dedication made him the champion of the competition.

Save the Waves created by 6A Tahmid

Tahmid created this game with the hope of teaching students about water pollution. He was awarded 2nd place in the competition. The game starts by catching rubbish with a fishing net while avoiding catching fish before time runs out. In the subsequent levels, more fish and corals appear, increasing the level of difficulty. If you win the game, you will finally witness a page with a dancing fish animation!

Rubbish Frenzy created by 6A Everest

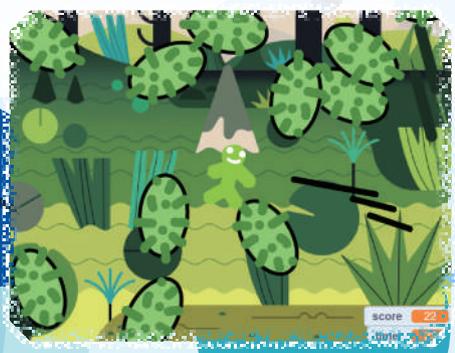

Everest developed a game with the objective of teaching people the proper way to recycle waste. To score points, players must continuously pick up rubbish from the floor. The next level of the game involves recycling the collected waste. To win, players must wash and dry each item before placing it in the appropriate recycling bin. This engaging game earned Everest 3rd place in the competition.

Germ Blaster created by 6A Liam

Liam created this game with the aim of encouraging younger students to wash their hands. In the game, players must destroy 20 germs, which double in number in the next level. Each time a round is cleared, a step for handwashing is revealed. The game consists of five levels for players to achieve. Liam was awarded the Gold Award in the competition.

Robofest Hong Kong RoboParade Junior

Students enjoyed the competition at the Education University of Hong Kong.

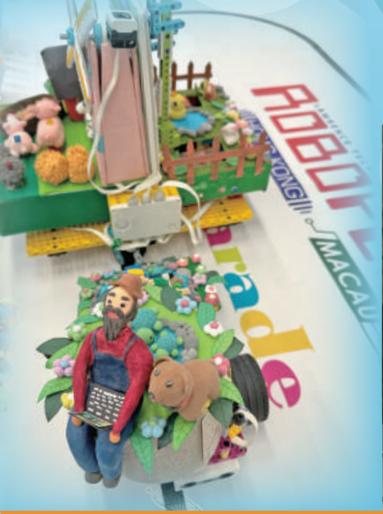

During the RoboParade event held on February 24th, 2024, a team consisting of Aleena from 5A, Faith from 5C, Ingsa from 6A, and Favour and Amnah from 6B collaborated to showcase their parade car, highlighting smart farming. The car was predominantly crafted using soft clay, combined with craft paper and LEGO pieces, to illustrate the role of modern technologies like Artificial Intelligence in enhancing farming practices. Notably, the car featured various interactive elements, including a light sensor integrated into the windmill, which utilized solar energy to generate electricity. The girls exhibited exceptional skill in crafting their soft clay models, and their strong teamwork resulted in them being awarded the Gold Award in the competition.

The monitoring drone can detect soil moisture, optimally watering for water conservation.

Sensors on the farm animals are used for health monitoring.

The farmer at the front of the parade car monitors the farm operations using a laptop.

The group used a glue gun to attach the soft clay work on the car.

"Love, Innovate for Happy Ageing" Challenge Competition (LEGO Group and Micro:bit Group)

On 2nd December 2023, two teams of students participated in the "Love, Innovate for Happy Ageing" Challenge Competition organized by the Hong Kong Polytechnic University. They competed in both the LEGO and Micro:bit categories, where they had to collaborate with elderly individuals to control a car and pop balloons attached to their opponent's car.

The team that successfully popped all the balloons would advance to the next round. As a result of their hard work, the LEGO team achieved the 1st runner-up position, while the Micro:bit team secured the 2nd runner-up position. Both teams were also honoured with the Best Controller Design award, which further validated their accomplishments.

Collaborating with the elderly was fun.

Students built beautiful cars and controllers with the intention of sharing the idea of love with the elderly.

Students' effort was recognised.

The teams tried their best to pop the balloons of the opponent's team.

Visit to STEM Day at HKUST

On 13th January 2024, a group of 24 students from P.4 to P.6 visited the STEM Day event at the Hong Kong University of Science and Technology. During the visit, they had the opportunity to participate in a variety of engaging STEM activities, including DIY corners where they created STEM crafts such as a Graffiti Robot and Spider Robot. They also attended workshops to learn about electronic piano soldering, Micro:bit obstacle-avoiding robots, and viewed robot displays created by the HKUST Robotics Team, as well as flying aircraft created by the HKUST Aero Team.

Students immersed in captivating STEAM activities at HKUST STEM Day.

Look at whose aircraft flies the furthest!

Students were building the Graffiti robot that could draw.

Students meticulously soldered the piano keyboards with the utmost care.

Students got the chance to control the robotic invention created by the University teams.

YKN STEM Competition – Robot in a Flash

Achieving First Prize in the competition.

Musab, Salif, Kin Ho and Holden from 5A, along with Luca from 5C and Yasin from 6A, participated in the STEM Competition - Robot in a Flash held by Buddhist Yip Kei Nam Memorial College on 25th November 2023. They were challenged with programming a robot car to perform various tasks, including line following and colour recognition, within the given time limit. Thanks to their hard work, our students received the First Prize in the competition.

Our students spent a lot of effort practising before the competition.

Students engaged in coding to enable the robot to flawlessly trace the line.

The robot adeptly adjusted its course, turning at the perfect angle based on colour cues.

Robotics Intelligence DJY 2023

Students delved into robot programming in preparation for the competition.

In May and July 2023, 5A Salif, Kin Ho and Holden, along with 5C Luca, participated in a competition which was organized by the Leisure and Cultural Services Department, Hong Kong Science Museum, and Creative Power. The preliminary round involved programming robots for tasks such as object detection and precise

More than happy to work together.

placement. Among the participants, 5A Holden and 5C Luca achieved the 1st runner-up position, while 5A Salif and Kin Ho secured the 2nd runner-up position.

In the final round of the competition held at the Central Library, participants faced advanced challenges, including building a robot using limited materials. Holden from 5A and Luca from 5C emerged as the champions in both the final round and overall. Salif and Kin Ho from 5A achieved 6th place and received the esteemed Best Challenge Spirit Award.

The final round required student to build a robot on-site which could walk straight without using wheels.

Students felt nervous about witnessing whether the robot would perform well.

"Love Our Home, Treasure Our Country" Parent-child Model Creation Competition

Delighted to attend the event, watching performances, and sharing moments with fellow primary school students.

Ason, from P.5A, together with his parents, created a STEAM model of Bruce Lee using soft clay, cloth, and electronic LEGO. Bruce Lee is an outstanding historical figure who embodies the spirit of justice and indomitability. The model entered the round of outstanding works in the "Love Our Home, Treasure Our Country" Parent-child Model Creation Competition and was displayed at Kowloon Tong Government Primary School on April 20, 2024. Ason was granted the opportunity to introduce his work to the guests attending the event and was awarded the First prize in recognition of his and his parents' efforts.

Ason explained the mechanics to Mr. Jeff SZE Chun-fai, JP (Under Secretary for Education), school heads and other guests at the venue.

The model, equipped with distance sensors, dynamically responds to approaching people by adopting a stance and performing kung fu moves with nunchaku.

Enhanced with motors and coding, the model displays flexible hand movements and surprises the audience with a different message on the hub.

National Education

Cross-curricular Activities

"Outstanding Historical Figures in China" is the theme of our cross-curricular activities this year under the "From Heart to Home" scheme - Joint School National Education Activities. Since China has such a long history with countless outstanding historical figures, we selected three notable figures as the focus this year. P.1-P.2 students studied Cai Lun, the inventor of papermaking, while P.3 - P.4 students studied Bi Sheng, the inventor of movable type printing, and P.5-P.6 studied the famous mathematician, astronomer and inventor, Zu Chongzhi.

In the cross-curricular activities, students learned about these Chinese important historical figures and their achievements through hands-on activities.

My Monster Character Design

Fill in the information of Zu Chongzhi, and read another book in HK EduCity on a Chinese historical figure of your choice!

Name: Zu Chongzhi
 Nationality: Chinese
 Gender: Male
 Area of interest: Mathematics
 Achievement: Mathematics, astronomy, calendar

How does he look like?

First	Next	Then
At last	Finally	After that

Bi Sheng invented movable type printing around 1,000 years ago.

First, characters were carved on each piece of clay. Then they were fixed on an iron plate with frames in order. Next, after the setup was complete, ink was painted and a piece of paper was laid down. Finally, a printed sheet was created this way.

This technique improved the efficiency of printing and transformed traditional transcription into modern printing. As a result, scripts and paintings spread widely in the world.

Constitution and Basic Law Student Ambassadors Training Scheme

Constitution and Basic Law Student Ambassadors are in zoom conference on Constitution Day.

Constitution and Basic Law student ambassadors participated in a series of activities to deepen their understanding of the Constitution, Basic Law, Chinese culture and national security.

Constitution and Basic Law Student Ambassadors visited the Hong Kong Palace Museum on 21 December 2023.

P.5 & P.6 Constitution and Basic Law Student Ambassadors participated in National Security Writing Competition and School Bulletin Board Design Competition.

Sister School Exchange Scheme

To deepen mutual understanding and develop friendship between students from LCU and our sister school, Shenzhen Nanshan Foreign Language (Group) Keyuan Primary School, we have carried out a series of activities this year. In October, students from the two connected classes had a pen pal activity while in December, students from the two schools were engaged an exciting English debate competition.

On January 18, 2024, LCU warmly welcomed the teachers and students from Keyuan Primary School. In the early morning, our guests visited Tai Kwun with the 5A students to learn about the history of Hong Kong. Afterward, they participated in STEAM activities with students from classes 5A, 5B, and 5C in the LCU school hall. In the afternoon, teachers and students from both schools had a short gathering. The headmistresses from both schools, Ms. Chui and Ms. Li, gave speeches, exchanged souvenirs, and held a small Prize-giving Ceremony for the Debating Competition that took place in December. These

face-to-face activities allowed students to deepen their mutual understanding and develop friendships.

Staff Development Day

To enhance understanding and communication between LCU and Keyuan Primary School, and to foster cultural exchange, LCU teachers visited our sister school on March 26, 2024, as the inaugural activity of the Staff Development Day.

The LCU teachers were warmly welcomed by the Principal, teachers and students of Keyuan. They had the opportunity to witness an impressive open Mic performance by Keyuan students, explore the football showroom, visit the library, and observe golf lessons. It was a day filled with engaging activities that allowed for greater interaction between the two schools.

Afterward, we also visited Shenzhen Intellifusion Technologies Co. Ltd. and Splendid China-Chinese Folk Culture Village to deepen our understanding of national identity. During the visit to Intellifusion, teachers learned about the current development of Artificial Intelligence technology in Mainland China. Additionally, teachers gained insights into the history, culture, art, ancient architecture, customs, and traditions of various nationalities by exploring the theme park.

Study Tour

On March 22, 2024, a group of 30 P.5 and P.6 students embarked on a study tour to Foshan, a significant city in the Greater Bay Area. It was their first visit to the Greater Bay Area, and the students thoroughly enjoyed immersing themselves in the history and culture of Foshan. They had the opportunity to visit various sites and engage in hands-on experiences, such as making pottery by hand.

While riding on the high-speed train, the students were pleasantly surprised by the remarkable advancements of high-speed rail technology in mainland China. Everything appeared so new and intriguing to them. Everyone thoroughly enjoyed the trip.

Values Education

Life-planning Day for Primary 6 students was organized on 2 February 2024. It was a tailor-made programme which aimed to enrich students' career-related experiences with various activities and sharing by social workers and alumni. We hope this programme would give our students an opportunity to reflect on their personal goals and gain insights into future career prospects.

The following are the activities and programmes held for our students on Life-planning Day:

Life-planning Workshop

The workshop enhances students' self-understanding, personal planning, goal setting as well as self-reflection and revision. It also equips them with knowledge and skills for future study, career and training pathways, work ethics and the change of the working world.

Mental Health Programme

Maintaining students' mental health means allowing them to learn better and be more able to realize the full potential.

Anti-bullying Talk

Empowering students to face bullying is important. They need to know the ways for dealing with bullying if it happens to them or others.

In order to promote the value of empathy and encourage students to serve the community, the school arranges a variety of interesting parent-child activities and meaningful community services.

Parent-child Flag Selling Day (H.K.S.K.H Lady MacLehose Centre)

On 16 March, 2024, 35 pairs of parents and children took part in the Flag Selling Day to show their support for the H.K.S.K.H Lady MacLehose Centre. The objective was to raise funds for the H.K.S.K.H Lady MacLehose Centre, which provides support to vulnerable individuals and families.

Our students and parents took pride in selling flags. They are our best role models!

Multiple Intelligence Lessons

To give the students an opportunity to increase their engagement and knowledge of different subjects, Multiple Intelligence Lessons (MIL) were conducted on Wednesday afternoons. Some hands-on activities were provided on a range of topics 'The Sound of Music', 'Lunar New Year', 'National Education' and 'Artistic Journey'.

After learning about the musical drama film 'The Sound of Music', students had Music Appreciation and showed their worksheets to their classmates.

Students made artwork to express their love and gratitude to the ones they love in the Artistic Journey lessons.

SHARING THE PLANET: WHY OUR PLANET NEEDS SHARKS!

14

Guest speaker Andrea Richey, Executive Director of Hong Kong Shark Foundation, came to our school to deliver a talk about "Global Ocean Crisis: Why Our Planet Needs Sharks" to P.4-P.6 students.

Students were serious about finishing their Chinese cultural products and shared their work to celebrate the Lunar New Year and National Education.

Students designed heartfelt cards to express their gratitude to the people who show love to them.

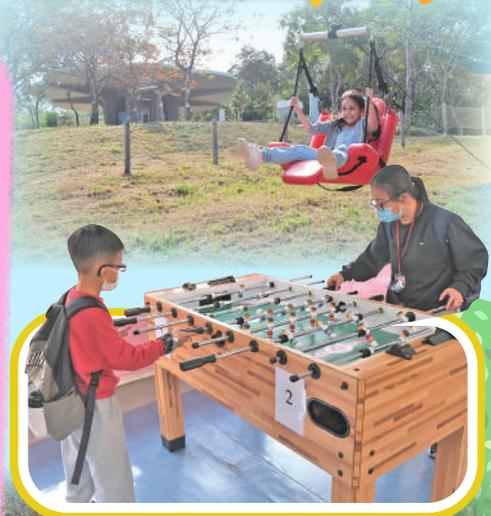

Students' logical and creative thinking skills were inspired through the use of 'Logiblocs' and 'Bluebot App' and in STEAM Kids.

PTA Picnic

About 250 parents and their kids joined the annual PTA Picnic held at Sai Kung Outdoor Recreation Centre on 13 January 2024. Bathed in warm sunshine and gentle breezes, it was a wonderful opportunity for all participants to rejuvenate their bodies and minds in the fresh air of the countryside. As the coaches travelled to the destination, lucky draws and challenging riddles were conducted, bringing excitement to everyone. The participants were delighted to win fabulous prizes.

After taking group photos, we engaged in group games with a giant, colourful rainbow parachute, which provided great fun. We then indulged in various outdoor and indoor games, including basketball, badminton, roller-skating, archery, rope challenges, and American Pool. It was a fruitful trip and a joyful family day for all the participants.

PTA Community Visit

It's incredible to think that we are sitting in the exact place where significant meetings took place 100 years ago.

On 29th April, 2024, eleven parents went for a walk on the Dr. Sun Yat-sen Historical Trail to trace the footprints of Dr. Sun Yat-sen. The trail included attractions related to Dr. Sun's education in Hong Kong, the schools he attended, the places he lived, and the venues where he engaged in heated discussions of national affairs with his friends. The trail also showcased sites where revolutionary activities were held by Dr. Sun and other revolutionaries before the overthrow of the Qing Dynasty, as well as displays depicting Hong Kong during Dr. Sun's time.

During their walk, the parents scanned the QR codes of various spots along the trail. They then redeemed souvenirs at the final stop, the Dr. Sun Yat-sen Museum. All the parents found the visit to be rewarding and meaningful.

We are all prepared and excited to embark on this historical journey!

Tai Kwun is a place where history and art collide in perfect harmony.

The parents thoroughly enjoyed the outdoor history lesson.

The parents explored Dr. Sun's life history and his revolutionary career at the Dr. Sun Yat-sen Museum.

Parent Education

To promote the well-being of parents, equip them with parenting skills and arouse their interest in Chinese culture, the PTA organized various classes and workshops from September 2023 to June 2024. Being highly informative and interesting, the PTA activities have attracted enthusiastic participation from our parents. Let's see some of the highlights.

Chinese Learning Workshops for Parents

To help parents integrate into the local community by understanding more Chinese language and culture, a series of Chinese learning workshops were conducted for our parents. At the workshops, parents could learn about some important Chinese historical figures, Chinese food culture, Chinese wedding custom and traditional festivals, etc.

Our parent look gorgeous in Xinjiang Cultural costumes.

Do you like our Spring Couplet?

Parent-child DIY Trash-to-Treasure Workshop

To deliver and promote messages on environmental conservation, a parent-child DIY trash-to-treasure workshop was held on 18th December, 2023 so that our parents could spend quality time with their children while enhancing their environmental awareness. At the workshop, 10 pairs of parents and their kids learnt how to make their own robots by upcycling the unused materials and waste.

You can't use up your creativity. The more you use, the more you have.

Parent-child Fitness Workshop on Kabaddi

A parent-child fitness workshop on Kabaddi was held for 15 pairs of parents and their kids on 20th December, 2023. Through practising Kabaddi, parents and their kids could learn the spirit of teamwork and perseverance as well as alertness.

Defence! Attack! Parents Team VS Students Team! Who will win?

Parent-child Flag-Selling Day

A parent-child flag selling day was held on 16th March, 2024. More than 40 parents and their children joined this meaningful activity to raise funds for the Hong Kong Sheng Kung Hui Lady MacLehose Centre.

No one has ever become poor from giving.

Fitness Class on Yoga

Our parents learnt some breathing exercises, meditation, stretching and aerobic exercises in the 10-session fitness class on yoga from 9th April to 25th June so as to develop their physical and psychological well-being.

Yoga is a way of life which brings harmony between mind and body.

Seminar on Pain and Pain Management

A seminar on pain management was held on 17th April, 2024 to equip our parents with the knowledge of various types of pain and the proper ways to manage pain.

Parents learning different home exercise for pain management from the physiotherapist

Parents' K-pop Dance Class

A K-pop dance class was organised for our parents from October 2023 to May 2024. With the mesmerizing dance routines and catchy tunes, the parents not only practised the high-energy, full body movements that enhanced their cardiovascular endurance and muscle tone, but also elevated their mood and reduced stress levels.

We dance with love, we dance with joy and we dance with dreams!

65th Anniversary Celebration

The student MCs, Salif and Qais from 5A and Myla from 6A, did a fantastic job!

Our Lion Dance Team brought good luck to us!

The talented Chinese Dance Group showcased their impressive moves.

After culmination of a year's worth of tireless training and rehearsals, the Li Cheng Uk Government Primary School Gala Performance cum 65th Anniversary Celebration was successfully held on 24 May 2024 at Tung Po Kitty Woo Stadium. This highly anticipated event celebrated the boundless talent and unwavering dedication of the school's performing arts students and the exceptional guidance and mentorship provided by our teachers and coaches.

The Gala Performance was a multifaceted showcase that brought together diverse artistic disciplines cultivated within the school's ECA lessons. From the captivating melodies of the school junior choir to the electrifying choreography of our parents' dance, each performance served as a celebration of the school's thriving arts community, and fostered a sense of camaraderie among our talented student and parent performers.

From the moment the student MCs announced the beginning of the show, the audience was treated to a dazzling display of raw talent, polished technique, and infectious enthusiasm. This was perhaps best exemplified by the way the performers and audience came together to sing "A Million Dreams", the theme song of our celebration, led by the very professional Mr. Billones and Ms. Nilda. As the final notes faded and the joyful applause echoed through the stadium, the students revelled in the well-deserved recognition of their achievements.

Excitement and anticipation will undoubtedly continue to build for the next student and parent performance, but until then, let us cherish the happy memories and success of our school's 65th anniversary celebration.

Our Chinese Drum Group played traditional Chinese music.

The Senior Choir Group was excellent way to bring our gala performance to a close!

tion Gala Performance

Our Group singers entertained the audience with their angelic vocals!

Our Rope Skipping Team's performance showed that they had practiced extensively.

The Traditional Chinese Martial Arts Group demonstrating their skills.

Li Cheng Uk Government Primary School 65th Anniversary Celebration Gala Performance

Our guests of honour, Mr Sit and Ms Chick from the EDB, were presented with a small gift prior to the start of the performance.

Our marvellous parent dancers were good at k-pop.

The Junior Choir Group sang like angels.

The talented Mr Billones and Ms Nilda wrapped up the performance by singing "We are the World" with our Senior Choir Group.

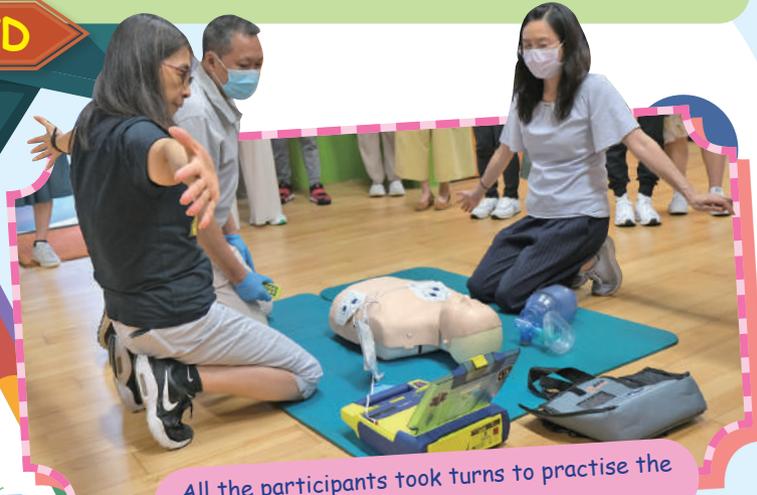

Teachers' Professional Development

The School-based Teachers' Professional Development Programme was organized through training workshops, sharing sessions by teachers, and staff development days. The aim was to enhance teachers' knowledge in specific subject disciplines, curriculum development, recent trends in pedagogy and current education issues, as well as teaching and community resources. The programme helped teachers feel more motivated and engaged in their work and improved their teaching skills through the use of new strategies for lesson planning and classroom management.

First Aid Workshop on CPR and AED

The instructor taught our teachers how to perform CPR on a model.

All the participants took turns to practise the skills on a model.

Workshop on Cooperative Learning

The speaker from the Education University of Hong Kong shared cooperative learning strategies, lesson plans with cooperative learning elements and how to use them to cater for learner diversity.

Seminar on Handling School Complaints by Mediation

What is Mediation?

A statutory definition? See section 4(1) of the Mediation Ordinance (Cap 620, Laws of Hong Kong) –

(1) For the purposes of this Ordinance, mediation is a structured process comprising one or more sessions in which one or more impartial individuals, without adjudicating a dispute or any aspect of it, assist the parties to the dispute to do any or all of the following –

- (a) identify the issues in dispute;
- (b) explore and generate options;
- (c) communicate with one another;
- (d) reach an agreement regarding the resolution of the whole, or part, of the dispute.

The barrister-at-law explained to the SMC members and teachers the advantages of mediation for resolving conflicts and how to apply mediation skills in different context.

Workshop on Adopting Collaborative Learning in Reading

The Advisory Teacher from the NET Session shared ideas with the English teachers on how to employ collaborative learning strategies in reading lessons to enhance learning effectiveness.

Training Workshop for STEAM Week

G.S. teachers were divided into groups to attend the training and tried out the STEAM activities that students would participate in STEAM Week.

Sports Day (p.3-p.6)

The eagerly-anticipated Sports Day was held at Sham Shui Po Sports Ground on 12th April, 2024. It was the perfect opportunity for our students to demonstrate their athletic prowess. Following the pledge by our student representatives, our sporty P.3-P.6 students enthusiastically participated in various events, including track events, long jump, softball

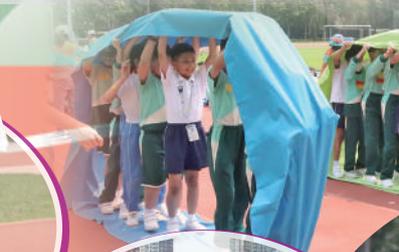

throw, and parent-child games. Students persevered and were determined to win a medal while simultaneously showing a great deal of sportsmanship.

Special thanks go to our parent volunteers for helping to run the event smoothly, as well as our guest of honour, Mr. Kwok, who won gold and silver medals at the Asian Para Games in boccia and lawn bowls, shared a motivational speech with our students about staying committed and focused on our goals. He also participated in the teacher-student relay race.

Congratulations again to all our winners and those who tried their hardest.

Kicking off the day's events!

Students showed off their athletic prowess in numerous different events.

Enthusiastically showing their support for their schoolmates.

Team spirit is what it is all about!

Congratulations to all of the winners and those who tried their hardest!

We greatly appreciate the active involvement of parents in our Sports Day.

Our special guest, Mr. Kwok, an Asian Para Games gold medalist, shared some motivational words with our students.

LCU Games Day (p.1-p.2)

LCU Games Day was held on 2 February 2024. We would like to extend a huge thank you to the Headmistresses, staff, and students of HKCS Lei Cheng Uk Nursery School and SKH Sham Shui Po Kei Oi Kindergarten for their participation in this exciting event. This year, we introduced a parent-child game to encourage the involvement of attending parents. Congratulations to the overall champions, classes P.1A and P.2B! We also applaud all the other winners and competitors for giving their best efforts. The students demonstrated perseverance and sportsmanship, showing respect to others throughout the games.

Fun and Games

WORD PYRAMID

Can you build the word pyramids by solving the clues? Starting from the top, each layer of the word pyramid uses the same letters as the layer above it, plus one extra (although they may be in a different order!).

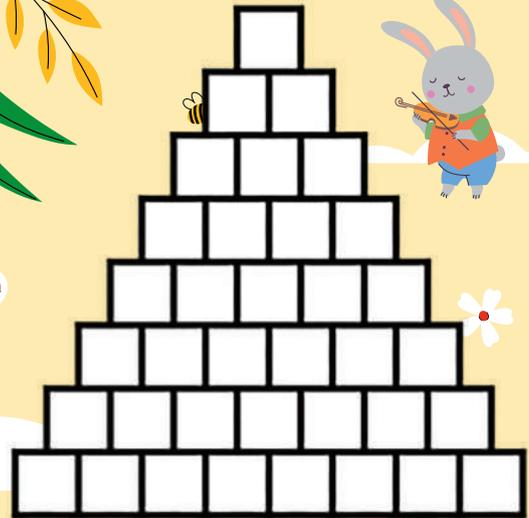

The next answer contains an 'A' and one other letter

1. The first letter of the alphabet
2. School starts ____ 8:30 a.m.
3. A common family pet, related to a lion
4. A horse-drawn vehicle
5. A person on the stage or in a film
6. An orange vegetable
7. A vehicle that a farmer might use
8. To make something last longer

Answers

1. The second letter of the alphabet
2. To exist
3. Risk money on a result
4. Better than everything else
5. Beauty and the _____
6. A place where you keep horses
7. Fights between two armies
8. What you should always wear when you go in a car

Jokes

1. Why don't fish go on vacation?
2. What do sheep do on sunny days?
3. What do you call a snowman in the summer?
4. What do you call a witch who lives on a beach?
5. Why don't scientists trust atoms in the summer?
6. How does the sun cut its hair?
7. Why did the elephants get kicked out of the pool?
8. What do you call a fish with no eyes?

HA

HA

1. Because they're always in school!
2. Have a bag-bag-cue
3. A puddle!
4. A sandwitch!
5. Because they can make up everything!
6. Eclipse it!
7. They kept dropping their trunks.
8. Fshi!

Unusual Sporting Events

Snail Racing

Some people like watching highspeed events like Formula 1. But for those that prefer slower, more relaxing races there is snail racing. This involves ordinary garden snails slugging it out on a purpose-built track. The snails are placed in the centre of the circular track and the first one to reach the edge of the track wins. Small stickers are put on their shells so that they can be easily identified.

This summer, Paris will host the 33rd edition of the Summer Olympics, arguably the biggest sporting event in the world. It is anticipated that around a billion people will watch the world's greatest athletes compete in hundreds of events. However, here are some of the less known sporting events that also take place around the world.

Chess Boxing

The ultimate test of brains and brawn, chess boxing will give you both a physical and mental workout. As the name suggests, competitors have to be skilled in both chess and boxing, and there are alternating rounds of each. The winner is the first person to either get a knockout or checkmate.

Cycleball

Also known as Radball (from the German word Rad meaning bike), cycleball is basically football played on bicycles. However, unlike traditional football, players have to use the wheels of their bike instead of their feet. The aim of the game is to control, flick and move the ball into the oppositions goal using only their wheels and their heads.

Zorbing

This is a sport that would definitely give you a headache. It involves getting in a giant transparent orb and then having to race down a hill, across water or through other obstacles. The orbs themselves are essentially giant hamster balls, and competitors can get hurled through the air.
