

Notice: 27/2022 – 23

1.3.2023

To: Parents/Guardians,

Health Protection Measures for Schools

Please note the following:

1. Proper Use of Face Masks

The Government has fully lifted the compulsory mask-wearing requirement starting from 1 March 2023. All school staff, teachers, students and visitors are no longer required to wear face masks in school premises.

Wearing face masks can effectively reduce the risk of viral transmission and at the same time, protect the wearer and other persons. **If students have fever or respiratory symptoms, they should wear well-fitted surgical face masks according to the CHP's recommendations. They should not go to school and should avoid going to crowded environments. They should seek medical advice as soon as possible. If necessary, parents/guardians can arrange for your children/wards to wear face masks.** For details of wearing face masks for the related situations, please refer to the following webpage: https://www.chp.gov.hk/files/pdf/mask_wearing.pdf

In view that students have been wearing face masks for a period of time, some students may feel uncomfortable with the cancellation of mask-wearing requirement, parents/guardians please refer to the relevant information provided by EDB (<https://mentalhealth.edb.gov.hk/en/promotion-at-the-universal-level/promotional-resources-for-schools/97.html>) to help your children/wards gradually adapt to new living habits and stay positive upon resumption of normal school life.

2. Monitoring Body Temperature and Undergoing Rapid Antigen Test

The requirement for students of primary schools to undergo daily RAT before going to school is maintained until 15 March 2023. For the arrangements thereafter, EDB will review the situation and make timely announcement.

Parents/guardians please ensure that your children/wards have taken their body temperatures and undergone RAT before returning to school and bring the "Record Sheet for Body Temperature and Rapid Antigen Test" signed by you back to the school.

3. Advice for Parents

Parents/guardians are advised to stay vigilant on your children's/wards' health conditions. If they have fever, respiratory symptoms or sudden loss of taste or smell, etc., they must seek medical advice immediately and should not go to school. If your children/wards are confirmed with COVID-19, you should inform the school immediately.

Please remind your children/wards to bring tissue paper and a few face masks to school, take your children's/wards' body temperatures and arrange them to undergo RAT before they go to school every day, and fill in the information as required by the school.

Please avoid your children/wards going to crowded places or poorly ventilated public places, etc. They should maintain a balanced diet, exercise regularly, and take adequate rest to strengthen their immunity. Also, please browse the school website to keep abreast of the latest information. For any enquiries, please contact the school at 2386 8049. Thank you for your attention.

(Ms CHUI Sau-man)
Headmistress
